

asyst Hardware Requirements:

Required Workstation:

The **asyst** system requires Windows Vista Business Service Pack 1 / Windows 10/ Windows 7 Professional Service Pack 1/ Windows 8 Pro Service Pack 1 operating system (Vista Home, Windows 7 Home, Windows 8 shipped with many lower priced computer systems, is not suitable for use within a business network according to Microsoft specs). The hardware must have a Pentium 4 or later processor running at a minimum of 1 GHz, 2 GB of RAM & 10 GB of free disk space for the application and several years of data. A fast Ethernet (100 base-T) network card is required for networked workstations. **asyst** is a 32bit application that will also run on 64bit Windows operating systems.

Recommended Workstation:

2 GHz Pentium 4 or later with at least 4 GB of RAM and 20 GB free disk space. A Fast Ethernet Network Card (100 base-T) is required for networked workstations. If you are installing a new network or new pieces of a network, we strongly recommend using Gigabit (1000 base-T) network technology.

Server Requirements:

1 GHz Pentium 4 or later. 2 GB RAM and 10 GB of free disk space, a Fast Ethernet Network Card (100 base-T) and a Fast Ethernet Switch.

Server Recommendation:

2 GHz Pentium Pentium 4 or later, 4 GB RAM, 40 GB free disk space, DVD-ROM, and a Gigabit Ethernet Network Card (1000 base-T) and a Gigabit Switch.

Networks:

Windows Server 2003, Windows Server 2008 R2, or Windows Server 2012 R2 Windows Vista Business/Windows 7 Professional/Windows 8 Pro peer-to-peer

USTI recommends Windows servers over Netware server due to the resource limitations that Netware imposes when using Microsoft Access databases. If you are running network software that is not listed, please contact USTI to discuss compatibility issues.

Printers:

A laser printer is necessary for printing the **asyst** monthly reports, annual reports, W-2s, T4s, and other forms. Continuous or laser checks/cheques are available for the **asyst:Accounts Payable** and **asyst:Payroll** applications. **asyst** also has MICR options for **asyst:Accounts Payable** and **asyst:Payroll** check/cheque printing. We recommend HP printers for laser printing, contact USTI for more information. The continuous post card utility bill forms require an Epson LQ570+ or similar Dot Matrix tractor-fed printer. The laser post card utility bill forms require a laser printer with a standard, straight-through paper tray (top load laser printers will not align properly).

Note: Microsoft Excel is necessary to run **asyst:Budget XLence** and **asyst:Report XLence**. Microsoft Office XP or later Professional is an **optional**, but recommended, tool for all **asyst** applications.
