

ANIMAL LICENSES[™]

Tomorrow's Integrated Information System

asyst:Animal Licenses provides an efficient and accurate system for issuing and maintaining animal licenses issued by your organization. **asyst:Animal Licenses** allows your organization to:

- Enter and maintain licenses for many different animal license types.
- Keep track of the animal type, breed, color, name and owner for all animals owned/licensed by a single owner.
- Track the effective and renewal date for each license.
- Enter and maintain the license fee associated with each license and the dates on which each is paid.
- Automatically send renewal notices to owners when licenses expire.
- Keep track of the animal's veterinarian.
- Allows for 6 user defined fields to track additional information.
- Scan and attach any type of document to the animal license database.
- All reports can be exported to Microsoft Word and Excel.

asyst:Animal Licenses is part of a comprehensive system of individual **asyst** applications that can be mixed and matched to meet the needs of your organization. The **asyst** family operates in either a single user or networked PC environment.

Despite its ease of use and value pricing, **asyst:Animal Licenses** is packed with features that will make your work life more organized and more efficient.
