

BUSINESS LICENSES[™]

Tomorrow's Integrated Information System

asyst:Business Licenses provides an efficient and accurate system for issuing, tracking and maintaining licenses for any number of different businesses located in your municipality.

asyst:Business Licenses allows your organization to:

- Enter and maintain license applications for many different types.
- Keep track of the applicant, business owner and physical location of the business.
- Track the effective and renewal date for each license.
- Enter and maintain the license fee factors and the actual fee associated with each license and the dates on which each is paid.
- Automatically send renewal notices to business owners when licenses expire.
- Print the business license to be displayed in the business establishment.
- Easily scan and attach documents to the Business License database.
- Letters and notices can be easily created with Microsoft's Word mail merge feature.
- User-defined fields for types of license and business.
- Reports can export easily to Microsoft Word and Excel.

asyst:Business Licenses is part of a comprehensive system of individual **asyst** applications that can be mixed and matched to meet the most exact needs of your organization. The **asyst** family operates in either a single user or networked PC environment.

Despite its ease and value pricing, **asyst:Business Licenses** is packed with features that will make your work easier, more productive and more efficient.
