

CEMETERY MANAGEMENT[™]

Tomorrow's Integrated Information System

asyst:Cemetery Management gives you the ability to easily maintain a register of the cemetery with details of all blocks, plots, graves, deceased and owners. In addition, **asyst:Cemetery Management** provides your organization with the following functionality in managing your cemetery:

- Records and monitors all lots, plots and graves with plenty of detail.
- Tracks notes on cemetery plot maintenance.
- Provides easy access to all plots by owner and by deceased.
- System maintains plots, additions, lot, block and grave number.
- System tracks purchase price, date and marker permit number.
- System maintains deceased name, date of birth, date of death, type of service and marker type.
- Easily tracks the plots that receive perpetual care and non-perpetual care.
- Scan and attach any type of document to your cemetery management database.
- Reports include Perpetual Care Plots by owner and location, plots by deceased and owner, plots by address for owner and deceased plus much more.
- Reports can be easily exported to Microsoft Word and Excel.

asyst:Cemetery Management is part of a comprehensive system of individual **asyst** applications that can be mixed and matched to meet the needs of your organization. The **asyst** family operates in either a single user or networked PC environment. Despite its ease of use and value pricing, **asyst:Cemetery Management** is packed with features that will make your work life easier and more hassle-free.
