

CITATIONS[™]

Tomorrow's Integrated Information System

asyst:Citations is a fully featured citation management system designed to track and manage citations issued by officers in one or more jurisdictions.

asyst:Citations provides an integrated set of programs to enter and report on citations issued and fines associated with them. It provides a virtually unlimited number of user-defined data fields as well as unlimited note capability to provide custom capabilities in an off-the-shelf product.

asyst:Citations is packed with features not usually associated with such a value priced product. It includes:

- Allows entry and maintenance of all citations.
- Tracks citations by issuing officer, agency and detailed geo code.
- Allows an unlimited number of officers to be involved with a citation.
- Tracks all of the involved parties as well as their roles in the citation.
- Maintains an unlimited amount of narrative.
- Keeps track of the vehicle involved in the citation and records it in the Property Table.
- Manages a complete database of user-defined statuses and codes.
- Provides ample reporting plus reporting interfaces to Microsoft Access and Excel.
- Integrates seamlessly with the **asyst:Municipal Court Module**.
- Integrates with the Brazos Technology handheld ticket writers.

asyst:Citations is part of a comprehensive system of individual **asyst** applications that can be mixed and matched to meet the most exacting needs of your local government organization. The **asyst** family of products operates in either a single user or networked PC environment. **asyst:Citations** is packed with features that will help you to make your work life more organized and therefore easier and more enjoyable.
