

LOTTERY LICENSING™

Tomorrow's Integrated Information Systems

The Lottery Licensing System is powerful and easy to use. It helps you store, organize, and display information about the AGCO Lottery Licenses issued by your municipality. The Lottery Licensing System helps you maintain data about the organizations and individuals obtaining licenses and the locations where the Lottery Events are held.

- Easily keep track of the organizations that you issue licenses to
- Manage the documentation you have on hand (financial records, charter, bylaws, meeting minutes, etc.)
- Maintain current membership lists
- Monitor the annual review date
- Schedule single or multiple events and get warnings of potential conflicts
- Establish rates for license fees by lottery type and have the system automatically calculate them for you
- Print licenses on the AGCO forms
- Gather key financial data from lottery event reports and monitor past due reports
- Create custom rules to ensure expenses reports meet with your interpretation of legislated limits
- Let the system alert you to past due lottery even reports and organizational annual reviews
- Quickly and easily produce first and second reminder letters using your own custom template
- Control the eligibility status of late reporting organizations
- Define organization categories, specify allowable expenses for each category and then monitor transactions flowing through each organization's trust account to ensure compliance
- Produce provincial license summary reports with the click of a button
