

USTI SOLUTIONS

BUDGET FRIENDLY MUNICIPAL GOVERNMENT SOFTWARE

PUBLIC SECTOR SOLUTIONS

USTI develops, supports, and markets integrated municipal government software throughout the United States and Canada. With over 37 years of experience, USTI supports over 900 customers across North America.

QUICK FACTS

- Budget friendly solution with unmatched functionality
- Similar look and feel to Microsoft products
- Easy to use
- Specifically designed for municipal governments
- All modules are tightly integrated
- Implement one or multiple modules dependent on your needs

USTI SOLUTIONS

- **Fund Accounting** – USTI’s integrated fund accounting and payroll solution will allow your organization to effectively manage multiple funds and projects.
- **Utility Billing** – USTI’s utility billing software is a true cycle billing system that allows your organization to bill for unlimited metered, non-metered and non-recurring charges. Streamline your utility with integrated services orders, electronic readings, delinquent processing and integrated payments
- **General Government** – USTI’s general government software allows your organization to track and automate the processing of tax bills, permits, licenses and all code violations. Automate the renewals, inspections and reporting of all activities in your organization.
- **Municipal Courts & Public Safety** – USTI’s municipal court and public safety modules are designed to automate the information gathering and reporting needs of municipal court and police departments. Citations are entered into the system once so that the data flows from the police to the integrated municipal court database.
